

SUBASH STUDIO

Project Report & Technical Architecture Specification

Project Name:	Subash Studio Web Platform	Date:	September 4, 2026
Version:	1.0.0 (Production Release)	Primary Stacks:	React 19, Vite 8, Tailwind CSS
Backend Cloud:	Firebase v12 (Auth, Analytics)	Deployment:	Vercel / Firebase Hosting

1. Executive Summary

SUBASH STUDIO is a flagship digital portfolio, booking engine, and client management platform crafted specifically for premium wedding, portrait, commercial, and editorial photography services. Built with a warm luxury aesthetic (warm white #F8F6F2 background paired with champagne gold #C9A669 accents) and editorial typography, the platform bridges client acquisition with real-time backend studio operations.

Dual-Engine Architecture:

- **Public Experience Portal:** An immersive, responsive multi-page client website featuring masonry portfolio displays, 13-category lightboxes, cinematic film showcases, multi-branch locators (Kalladaikurichi & Tirunelveli), and direct WhatsApp booking inquiry triggers.
- **Admin Management Portal:** A password-protected administrative suite empowering studio staff to manage bookings, client enquiries, gallery media, service pricing, branches, customer testimonials, and dynamic website content in real time.

2. Project Vision & Core Objectives

- **Brand Elevation:** Project an elite visual aesthetic using editorial Fraunces serif typography and custom camera aperture design motifs.
- **Lead Streamlining:** Capture client inquiries effortlessly with event dates, budgets, and single-click WhatsApp interaction buttons.
- **High-Performance Gallery:** Render high-resolution images smoothly across 13 specialized categories using LightGallery and lazy loading.
- **Staff Empowerment:** Provide non-technical administrative staff full control over packages, pricing, photos, video links, and branch addresses.

3. Technology Stack & System Architecture

Layer	Technology / Library	Role & Architecture Purpose
Frontend Framework	React 19 (ESM)	Component-based client state and fast rendering
Build System	Vite 8	Instant HMR dev server & optimized bundle code-splitting
Styling & Theme	Tailwind CSS 3.4	Utility-first styling with custom luxury color design tokens
Typography Pair	Fraunces + Manrope	High-fashion serif display header paired with sans-serif body

Smooth Scroll	Lenis Scroll	Inertia-based smooth scrolling scoped exclusively to public routes
Animations	Framer Motion 13 + GSAP 3	Fluid page transition variants & scroll reveal animations
Lightbox & Sliders	LightGallery 2.9 + Swiper 14	Zoomable image galleries, touch sliders & masonry lightboxes
Cloud Backend	Firebase 12 (Auth/Analytics)	Secure administrative login, event tracking, and content storage
Code Quality	Oxlint	High-speed JavaScript/React linting and quality verification

4. Key Modules & Functional Specifications

Public Website Routes & Features

- **Home Page (/):** Dynamic hero banner, live experience counters using React CountUp, camera aperture reveal, and service carousel.
- **About Page (/about):** Studio history, founding narrative, creative team profiles, awards, and milestone timeline.
- **Services & Pricing (/services):** Categorized packages (Weddings, Pre-wedding, Commercials, Fashion) with feature checklists and booking triggers.
- **Editorial Portfolio (/portfolio):** Fluid masonry gallery with category filters and detailed project modal view.
- **Filterable Gallery (/gallery):** 13 specialized media categories (Weddings, Maternity, Baby & Kids, High Fashion, Product, Architecture, etc.) with LightGallery zoom.
- **Films Showcase (/films):** High-definition embedded video trailers, highlights, and full-length wedding film showcases.
- **Branch Locations (/branches):** Multi-studio hub detailing Flagship Studio (Kalladaikurichi) and Consultation Hub (Tirunelveli) with maps, addresses, and hours.
- **Contact & Inquiry (/contact):** Event lead form, map embeds, plus floating WhatsApp action button.

Admin Management Dashboard (^/admin^)

- **Dashboard KPIs (/admin/dashboard):** Real-time metric cards tracking total bookings, pending leads, revenue projections, and active media items.
- **Bookings Management (/admin/bookings):** End-to-end booking status workflows (Pending, Confirmed, In Progress, Completed, Cancelled).
- **Lead Inbox (/admin/enquiries):** Client inquiry queue with direct click-to-call and click-to-email options.
- **Media Content Managers (/admin/gallery & /admin/portfolio):** Dynamic image URL manager, tag editor, and category assignment.
- **Services & Pricing Editor (/admin/services):** Live modification of service package tiers, pricing details, and feature lists.
- **Branches & CMS Editor (/admin/branches & /admin/content):** Real-time updates to studio physical addresses, phone numbers, hero headlines, and site text.

5. UI/UX Design System & Luxury Aesthetics

Color Name	Color Token	HEX Code	Application & Usage
Warm White	bg-bg	#F8F6F2	Primary document and page canvas background
Champagne Gold	accent	#C9A669	Brand accents, active tabs, buttons, borders
Rich Charcoal	text-ink	#1A1918	Primary editorial headings and body text

Soft Cream	bg-card	#EFECE6	Card containers, modals, and input fields
Muted Slate	text-muted	#6B6862	Subtitles, metadata, captions, and footers

6. Studio Branch Locations Specification

City / Hub	Branch Role	Full Physical Address	Contact & Hours
Kalladaikurichi	Flagship Studio & Production HQ	88 Main Road, Kalladaikurichi, Tamil Nadu 627416	Ph: +91 93457 06609 Hours: 8:00 AM – 9:00 PM
Tirunelveli	Studio & Portrait Gallery	Ahil Complex, S Bypass Rd, next to selam RR briyani, Vasanth Nagar, Tirunelveli, Tamil Nadu 627005	Ph: +91 93457 06609 Hours: 8:00 AM – 9:00 PM

7. Deployment, Build & Operational Workflows

- **Vite SPA Routing Rewrites:** Clean URL routes configured in vercel.json to route all subpaths to /index.html.
- **Smooth Scroll Scope Isolation:** Lenis is active on public routes and automatically disabled on /admin to avoid table scrolling layout overhead.
- **Code Quality Assurance:** Zero lint errors verified with Oxlint toolchain.

8. Future Roadmap & Project Conclusion

- **Online Payment Gateway:** Direct online deposit processing via Razorpay / Stripe.
- **Client Photo Proofing Portal:** Watermarked online album selection portal for wedding clients.
- **Automated WhatsApp Notifications:** instant booking confirmation alerts sent directly to clients via WhatsApp API.

Conclusion: The Subash Studio Web Platform successfully establishes a state-of-the-art digital footprint. It balances high-fashion visual elegance with practical administrative efficiency, equipping Subash Studio for accelerated growth and seamless client management.
